1. Introduction

Welcome to the website of Prime. This Cookies Policy explains in detail how and why we use cookies and similar tracking technologies on our Site. Cookies are a fundamental element of our online presence, helping us provide a seamless and personalized browsing experience, optimize our services, and achieve our business objectives. At Prime, we view these technologies as an integral part of our digital operations, as they not only support site functionality but also contribute significantly to our strategic decision-making, customer engagement, and overall success. This policy is designed to offer you complete transparency regarding our cookie practices, ensuring that you understand the nature, purpose, and impact of the cookies we employ.

By continuing to use our website, you acknowledge that you have read and understood this Cookies Policy and consent to the use of cookies as described herein. We encourage you to read this policy thoroughly and, if necessary, adjust your cookie settings to suit your preferences.

2. What Are Cookies?

Cookies are small text files that are stored on your computer or mobile device by a web server when you visit a website. These files contain information that can be retrieved by the website on subsequent visits. Cookies serve several purposes, including remembering your preferences, enhancing site navigation, and collecting statistical data about site usage. In essence, cookies help to ensure that your online experience is more efficient and tailored to your needs.

The technology behind cookies is simple yet powerful. Each cookie typically contains a unique identifier, the website's domain name, and some information about the user's interaction with the site. This allows the website to "remember" you and track your usage patterns over time, making it possible for us to offer personalized content, secure transactions, and continuous improvements in our services.

3. Types of Cookies We Use

At Prime, we use a variety of cookies to enhance your online experience. Our cookies can broadly be categorized into four main types:

3.1 Essential Cookies

These cookies are critical for the operation of our website. They enable core functionalities such as secure logins, session management, and access to secure areas of the Site. Without these cookies, certain services on the website may not function properly.

3.2 Performance Cookies

Performance cookies collect anonymous information about how visitors use our website. These cookies help us to understand which pages are most frequently visited, the time spent on the site, and any issues that users might encounter. The data collected is used to improve site performance and overall user experience.

3.3 Functionality Cookies

Functionality cookies allow the website to remember choices you make (such as your username, language, or region) and provide enhanced, more personal features. They also help us to deliver customized content based on your previous interactions with our Site.

3.4 Advertising/Targeting Cookies

These cookies are used to deliver advertisements that are more relevant to you and your interests. They may also be used to limit the number of times you see an advertisement and help measure the effectiveness of our advertising campaigns. These cookies track your browsing habits and can share that information with third-party advertisers.

4. Purposes for Using Cookies

At Prime, we deploy cookies for several strategic objectives:

- **Enhancing User Experience:** By remembering your preferences and settings, cookies enable a more personalized and enjoyable browsing experience. For example, if you have previously selected your preferred language or region, cookies ensure that these settings are automatically applied during your subsequent visits.
 - **Ensuring Operational Efficiency:** Cookies are essential for managing user sessions, securing logins, and maintaining the integrity of our website. They ensure that your interactions on the Site are smooth and that your data remains secure.
 - **Analytics and Performance Optimization:** Cookies provide us with crucial insights into how our website is used. By analyzing these usage patterns, we can identify trends, address bottlenecks, and make data-driven decisions that improve the functionality and efficiency of our online services.
 - **Targeted Marketing and Advertising:** Through cookies, we can deliver tailored content and advertisements that align with your interests. This not only improves the relevance of the ads you see but also helps us optimize our marketing strategies to better serve our audience.
 - **Supporting Business Goals:** The insights obtained from cookie data help us refine our business strategies, improve product offerings, and ultimately contribute to the overall success of Prime. By understanding user behavior, we can innovate and evolve to meet the changing needs of our customers.
-

5. Detailed Cookie Categories and Their Functions

In this section, we provide an in-depth look at the various cookie categories and explain how they function within our website ecosystem:

5.1 Essential Cookies in Detail

Essential cookies are indispensable for the core functionality of our Site. They facilitate:

- **User Authentication:** Ensuring that only authorized users can access secure areas of the website.
- **Session Management:** Maintaining your session state as you navigate through different pages.
- **Transaction Processing:** Enabling secure and efficient processing of any transactions or online interactions.

Without essential cookies, users may experience interruptions or errors in accessing our services. These cookies are usually set in response to actions taken by you, such as logging in or filling out forms.

5.2 Performance and Analytics Cookies

Performance cookies help us to collect aggregated data about website usage. They allow us to:

- **Track Visitor Behavior:** Understand which pages are most popular and how users navigate through our Site.
- **Identify Technical Issues:** Detect errors or broken links that may hinder the user experience.
- **Optimize Content Delivery:** Analyze data to improve site speed, design, and overall performance.

The data collected by these cookies is anonymized and is used solely for improving our services. We do not link this data to any personally identifiable information unless explicitly stated.

5.3 Functionality and Personalization Cookies

Functionality cookies are used to enhance your interaction with the Site by:

- **Remembering User Preferences:** Such as language settings, region, or custom layouts.
- **Providing Enhanced Features:** Like saving form data or allowing you to resume an interrupted session.
- **Customizing Content:** Delivering personalized content and recommendations based on your previous interactions.

These cookies ensure that each visit to our Site feels familiar and tailored to your personal preferences, thereby fostering a more engaging and satisfying user experience.

5.4 Advertising and Targeting Cookies

Advertising cookies are designed to support our marketing efforts. They:

- **Monitor Advertising Effectiveness:** Measure the success of advertising campaigns and track ad performance.

- **Deliver Relevant Ads:** Serve advertisements that are most likely to be of interest to you based on your browsing behavior.
- **Limit Ad Frequency:** Ensure that you are not overwhelmed by repetitive advertisements by tracking ad views.

These cookies often work in conjunction with third-party advertising networks. The information collected is used to build a profile of your interests, which is then used to show you relevant ads both on our Site and across other websites.

6. Third-Party Cookies and Integrations

In addition to the cookies set directly by Prime, our website also permits trusted third parties to deploy cookies. These third-party cookies are set by external services, such as analytics providers, advertising networks, and social media platforms, that help us to improve our Site's performance and user experience. Here are some key points regarding third-party cookies:

- **Analytics Providers:** We work with industry-leading analytics services to monitor website usage and performance. These providers may set cookies that help us gather aggregated data about your interactions on our Site. Although this data is anonymized, it allows us to identify trends and improve our service offerings.
- **Advertising Networks:** Third-party advertising partners may place cookies on your device to serve targeted advertisements. They use the information collected to create a profile of your interests and present ads that are more relevant to you. We do not control the practices of these third parties, and we encourage you to review their privacy policies for further details.
- **Social Media Platforms:** Some social media plugins on our Site may set cookies to enable you to share content easily on your social networks. These cookies help to integrate social media functionalities into our Site, making it easier for you to interact with our content.

Please note that the use of third-party cookies is subject to the privacy policies of the respective third parties. Prime does not have direct control over these cookies, and we recommend that you review the privacy and cookie policies of any third-party services you interact with.

7. Managing Your Cookie Preferences

We believe in empowering our users with control over their online experience. Most web browsers are configured to accept cookies by default; however, you have the option to adjust your browser settings to manage or block cookies. Here are some common ways to control cookie usage:

- **Browser Settings:** You can modify your browser settings to refuse cookies, delete existing cookies, or receive a notification each time a cookie is being set. Please refer to your browser's help section for specific instructions.
- **Opt-Out Tools:** Some third-party services provide tools to opt out of targeted advertising and tracking. These tools allow you to control the use of your data across multiple websites.
- **Mobile Devices:** On mobile devices, the process for managing cookies may vary depending on the operating system and browser you use. Check the settings or privacy section of your mobile device for further information.

It is important to note that disabling or restricting cookies may affect the functionality of our Site. Certain features and personalized services might not operate as intended if cookies are blocked. Nonetheless, Prime remains committed to ensuring that you have full control over your data while providing guidance on how to adjust your settings if necessary.

8. Technical Measures and Security Considerations

At Prime, we implement a range of technical measures to ensure that the data collected through cookies is secure. These measures include:

- **Encryption:** Data transmitted via cookies is encrypted to protect it from unauthorized access.
- **Access Controls:** Strict access controls are in place to ensure that only authorized personnel have access to cookie data and related analytics.
- **Regular Audits:** We regularly review and update our cookie practices to ensure that they remain secure and compliant with industry standards.
- **Data Anonymization:** Where possible, data collected through performance and analytics cookies is anonymized to prevent identification of individual users.

These security measures are an integral part of our overall commitment to protecting your personal information and ensuring that our digital infrastructure remains robust and secure.

9. Data Collection, Retention, and Legal Basis

The data collected through cookies may be combined with other data we collect through different channels. We retain this data only as long as necessary to fulfill its intended purpose or as required by applicable law. The legal basis for our use of cookies includes:

- **Legitimate Interests:** Our use of cookies is justified by our legitimate interest in operating an efficient, secure, and user-friendly website.
- **Consent:** In cases where the use of cookies requires your explicit consent (such as for targeted advertising), we will obtain your permission before placing the cookies.
- **Contractual Necessity:** Some cookies are essential to providing the services you have requested and are therefore necessary for the performance of a contract.

By maintaining strict data retention policies and implementing robust security measures, Prime ensures that your data is handled responsibly and in accordance with applicable laws and regulations.

10. International Data Transfers

Given that Prime operates on a global scale, the data collected via cookies may be transferred to and processed in jurisdictions outside of your country of residence. We take every precaution to ensure that such international data transfers comply with relevant legal standards. This includes using approved contractual safeguards and data protection frameworks to maintain the highest standards of data security and privacy.

Users should be aware that while data protection laws may vary by jurisdiction, Prime is committed to upholding strong data protection principles irrespective of where the data is processed.

11. Impact on User Experience and Business Operations

The use of cookies by Prime is not merely a technical convenience—it plays a crucial role in enhancing the overall user experience and driving our business operations. By leveraging cookies, we are able to:

- Provide personalized content that resonates with your interests.
- Streamline your navigation experience, reducing friction and enhancing usability.
- Gather valuable insights that inform strategic business decisions.
- Monitor and improve site performance to ensure you receive a seamless browsing experience.
- Enable targeted marketing that not only reaches you more effectively but also drives higher engagement rates.

The insights gathered through cookie data help us optimize everything from website design to product offerings, thereby contributing significantly to our success and the achievement of our corporate mission.

12. Feedback, Updates, and Continuous Improvement

At Prime, we are dedicated to continuous improvement, and your feedback is an essential part of that process. We regularly review our cookie practices and update this policy to reflect changes in technology, regulatory requirements, and our business operations. If you have any comments, suggestions, or concerns regarding our use of cookies, we welcome your input. Your feedback helps us refine our practices and ensure that our website remains secure, user-friendly, and fully aligned with your privacy expectations.

13. Frequently Asked Questions (FAQ)

Below are some frequently asked questions regarding our cookie practices:

Q1: What is the purpose of cookies on the Prime website?

A1: Cookies are used to enhance your browsing experience by remembering your preferences, ensuring secure sessions, and providing insights into site performance. They also help us deliver personalized content and targeted advertisements.

Q2: Can I disable cookies?

A2: Yes, you can manage and disable cookies through your browser settings or by using available opt-out tools. However, please note that disabling cookies may impact the functionality and personalization of our website.

Q3: Are third-party cookies used on the Prime website?

A3: Yes, in addition to our own cookies, we allow trusted third-party services to set cookies for analytics, advertising, and social media integration. We recommend reviewing their respective policies for more details.

Q4: How secure is my data collected via cookies?

A4: Prime employs state-of-the-art security measures, including encryption and access controls, to protect data collected through cookies. We are committed to safeguarding your information in accordance with applicable legal standards.

Q5: How long is cookie data retained?

A5: The retention period for cookie data varies depending on the purpose of the cookie. Essential cookies are typically retained for the duration of your session, while others may be kept for longer periods in line with our data retention policies and legal obligations.

14. Contact Information

If you have any questions or require further information about this Cookies Policy or our cookie practices, please do not hesitate to contact us:
